ShopSense Return Policy

Effective 2026-01-01. Applies to all orders placed through the ShopSense storefront and mobile app.

RP-1 Return Window

RP-1.1 Standard Window

Most items can be returned within 30 days of delivery for a full refund or exchange, provided the item is unused, in its original packaging, and accompanied by the order confirmation or invoice.

RP-1.4 Category Addenda Take Precedence

The 30-day window above is the general default. Each product category has its own addendum (category_electronics.md, category_apparel.md, category_groceries.md, category_home.md, category_beauty.md) with its own window. Where an addendum differs from this policy, the addendum wins for that category. Check the item's category before quoting a window.

RP-1.2 Extended Window for Festive Season

Orders placed between 1 October and 31 December qualify for an extended 45-day return window, to account for gifting.

RP-1.3 Defective or Wrong Item

If an item arrives defective, damaged, or different from what was ordered, the customer has 60 days from delivery to report it, and no restocking fee applies regardless of condition.

RP-2 Non-Returnable Items

RP-2.1 Category Exclusions

The following categories cannot be returned once delivered, except where RP-1.3 (defective/wrong item) applies:

- Perishable goods (groceries, fresh flowers)
- Personal care items with a broken hygiene seal
- Gift cards and store credit
- Made-to-order or customized products

RP-2.2 Final Sale Items

Items marked "Final Sale" at checkout are not eligible for return or exchange under any circumstances.

RP-3 Return Condition Requirements

RP-3.1 Packaging

Items must be returned in their original packaging with all tags, manuals, and accessories included. Missing original packaging may trigger a partial refund deduction (see Refund Policy, RF-1.2).

RP-3.2 Electronics With an Opened Anti-Tamper Seal

Electronics with an opened anti-tamper seal can only be returned if defective (see RP-1.3); buyer's-remorse returns on opened electronics are not accepted.

RP-4 How to Initiate a Return

1. Open the order in "My Orders" and select "Return or Replace".
2. Choose a reason code from the dropdown.
3. Print the prepaid return label. It is free for RP-1.3 (defective/wrong item) cases; a flat INR 99 pickup fee applies for RP-1.1 and RP-1.2 reasons unless the customer has ShopSense Plus membership.
4. Hand the package to the courier within 7 days of label generation, or it expires and must be re-requested.

RP-5 Related Policies

See the Refund Policy (document: refund_policy.md) for how long a refund takes once a return is received, and the Escalation SOP (document: escalation_sop.md) for cases a return specialist needs to review manually.
